“Along the Trail,” *David Sumner and Danny On, 1979*

Come with us on a breathtakingly beautiful exploration of the heart and soul of Glacier National Park and the Northern Rocky Mountains of the United States and Canada. You will be amazed by the dazzling details in these 150 marvelous color photographs by the Late Danny On. This never-before-published treasury of On's work is skillfully woven together by well-known nature writer David Sumner in his text.

Dare to take an armchair hike through portions of America's remaining frontier - wild, beautiful and harsh. Probe all the splendor and the majesty, all the mystery and the incredible fragility of the alpine heights and the prairie plateaus.

Climb to where elk, moose, buffalo, deer and mountain goats graze among bouquets of brilliantly hued flowers. Thrill to the sight of a lone bighorn sheep perched precariously on a sheer face of rock, pausing to look back at you.

“America’s Spectacular Northwest,” *Prepared by the Special Publications Division, National Geographic Society, 1982*

Realm of wondrous diversity, America's Northwest begins on the foggy, forested shores of the Pacific Coast and spreads eastward high into the meadows of the Rocky Mountains, where chipmunks dine on cow parsnip seeds. Explorer and naturalist John Muir marveled at such panoplies, describing the fogs as "grand, far-reaching affairs....the infinite delicacy ... of their touch and they linger to caress the tall evergreens is most exquisite." Stunning photography celebrates the beauty of the Northwest, both the blessings of nature and the wonders of urban centers.

“History of North Idaho: Latah County,” *Simon Benson, Year Unknown*

An in-depth historical journey through Latah County and the towns and spaces we know and love!

“Off the Beaten Path: Idaho,” *Julie Fanselow, 2006*
